

# NOAA UNDERGRADUATE AND GRADUATE OPPORTUNITIES

The National Oceanic and Atmospheric Administration (NOAA) offers many scholarships, internships, fellowships and post docs for undergraduate and graduate students.

## **Ernest F. Hollings Undergraduate Scholarship**

Support for approximately 125 full-time undergraduate students studying in NOAA mission fields per year. Scholarship recipients receive two years of academic support and a 10-week paid summer internship at a NOAA or partner facility.

## **Educational Partnership Program Undergraduate Scholarship**

Support for two years of undergraduate study and two paid summer internships to rising junior students from Minority Serving Institutions majoring in fields that directly support NOAA's mission.

## **Dr. Nancy Foster Scholarship**

Support for independent graduate-level studies in oceanography, marine biology, maritime archaeology and all other science, engineering, social science and resource management involving ocean and coastal areas, particularly by women and members of minority groups.

## **John A. Knauss Marine Policy Fellowship**

A unique educational experience for graduate students who have an interest in ocean, coastal and Great Lakes resources and in the national policy decisions affecting those resources.

## **National Coral Reef Management Fellowship**

Seven two-year positions at institutions in coral reef states and territories to train the next generation of coral reef managers.

## **NOAA Coastal Management Fellowship**

This program matches up to six postgraduate students each year with state coastal zone management programs to work on two-year projects developed by the states.

## **Post Doc Positions**

More than 200 NOAA post docs available through the National Research Council and University Corporation for Atmospheric Research.
