

Rivers to Reefs Webinar

Gray's Reef National Marine Sanctuary

<http://graysreef.noaa.gov>

Gray's Reef National Marine Sanctuary is Georgia's amazing underwater park. The natural live-bottom reef is teeming with marine life and is part of the endangered North Atlantic right whale's calving ground. Loggerhead turtles rest at the reef, where scientists have identified more than 200 fish species.

Rivers to Reefs 2016 Overview, Daily Logs and Videos

http://graysreef.noaa.gov/education/workshops/2016_rivers_reefs/

Rivers to Reefs, a once-in-a-lifetime adventure, is offered annually to Georgia educators by Gray's Reef, Georgia Aquarium, Gordon State College, and the University of Georgia. The week-long field trip immerses 16 selected teachers, who competed for the privilege of participating in the workshop, into the Altamaha River watershed, allowing them to experience first-hand the vital connections between rivers and the ocean.

Rivers to Reef and Sea Monsters in the Sand Posters

<http://graysreef.noaa.gov/education/posters/>

Our educational posters, created by Gray's Reef staff both current and past, are available to teachers in hard copy; however, our supplies are very limited.

Georgia Adopt-A-Stream

<http://www.georgiaadoptastream.com/db/index.html>

Georgia's volunteer water quality monitoring program.

Gordon State College

<http://gordonstate.edu/tqe/home>

Lesson plans for teachers from previous trips of "Rivers to Reefs" program.
