ITC Notification

We have referred this case to the ITC so that it may determine whether these imports are materially injuring a U.S. industry. That determination is due on or before June 15, 1981. As section 735(c)(1)(A) of the act requires, we are making available to the ITC all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided it confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. If the ITC rules that material injury does not exist, this case will be terminated, and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. If, however, the ITC rules that such injury does exist, within seven days we will issue an antidumping duty order, directing the customs officers to assess an antidumping duty on all menthol from the PRC, entered for consumption after the suspension of liquidation, which was sold at less than the foreign market value.
