other authority are hereby certified and will remain valid if they do not authorize any activity prohibited by § 938.6. Any interested person may request that the Assistant Administrator offer an opinion on whether an activity is prohibited by these regulations.

(b) The Assistant Administrator may amend, suspend, or revoke the certification made under this section whenever continued operation would violate any term or condition of the certification. Any such action shall be forwarded in writing to both the holder of the certified permit and the issuing agency and shall set forth reason(s) for the action taken. Either the permit holder or the issuing agency may appeal the action as provided for in Section 938.10.

§ 938.10 Appeals of administrative action.

(a) Any interested person (the Appellant) may appeal the granting, denial, or conditioning of any permit under § 938.6 to the Administrator or NOAA. In order to be considered by the Administrator, such appeal must be in writing, must state the action(s) appealed, and the reason(s) therefore, and must be submitted within 30 days of the action(s) by the Assistant Administrator. The Administrator may request an informal hearing on the appeal.

(b) Upon receipt of an appeal authorized by this section, the Administrator will notify the permit applicant, if other than the Appellant, and may request such additional information and in such form as will allow action upon the appeal. Upon receipt of sufficient information, the Administrator will decide the appeal in accordance with the criteria defined in § 938.8(c) as appropriate, based upon information relative to the application on file at OCEC and any additional information, the summary record kept of any hearing, the Hearing Officer's recommended decision, if any, as provided in paragraph (c), and such other considerations as deemed appropriate. The Administrator will notify all interested persons of the decision and the reason(s) for the decision, in writing, within 30 days of receipt of sufficient information, unless additional time is needed for a hearing.

(c) If a hearing is requested or if the Administrator determines one is appropriate, the Administrator may grant an informal hearing before a designated Hearing Officer at first hearing notice of the time, place, and subject matter of the hearing in the Federal Register. Such hearing must normally be held no later than 30 days following publication of the notice in the Federal Register unless the Hearing Officer extends the time for reasons deemed equitable. The Appellant, the Applicant (if different) and other interested persons (at the discretion of the Hearing Officer) may appear personally or by counsel at the hearing and submit such material and present such arguments as determined appropriate by the Hearing Officer. Within 30 days of the last day of the hearing, the Hearing Officer shall recommend in writing a decision to the Administrator.

(d) The Administrator may adopt the Hearing Officer's recommended decision, in whole or in part, or may reject or modify it. In any event, the Administrator shall notify interested persons of the decision and the reason(s) for the decision, in writing, within 30 days of receipt of the recommended decision of the Hearing Officer. The Administrator's action will constitute final action for the Agency for the purposes of the Administrative Procedures Act.

(e) Any time limit prescribed in this section may be extended for a period not to exceed 30 days by the Administrator for good cause shown upon written request from the Appellant or Applicant stating the reason(s) for the extension.

BILLING CODE 3510-09-M

15 CFR Part 937

The Looe Key National Marine Sanctuary

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Final rule.

SUMMARY: The Office of Coastal Zone Management within NOAA is issuing the Designation and final regulations for the Looe Key National Marine Sanctuary. 67 nautical miles southwest of Big Pine Key, Florida (the Sanctuary). The Sanctuary was designated on January 18, 1981, after receiving Presidential approval on January 16, 1981. The Designation Document acts as a constitution for the Sanctuary, establishing its boundaries, purposes, and activities subject to regulation. The regulations establish, in accordance with the terms of the Designation, the limitations and prohibitions on activities regulated within the Sanctuary, the procedures by which persons may obtain permits for otherwise prohibited activities, and the penalties for committing prohibited actions.

DATE: These implementing regulations are expected to become effective upon the expiration of a period of 60 calendar days of continuous session of Congress after their transmittal to Congress, concurrent with publication. This 60-day period is interrupted if Congress takes certain adjournments and the continuity of session is broken by an adjournment sine die. Therefore, the effective date can be obtained by calling or writing the contact identified below. In addition, notification will be published in the Federal Register when the regulations become effective.

ADDRESS: NOAA invites public review and comment on these final regulations. Written comments should be submitted to: Director, Sanctuary Programs Office, Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, 3500 Whitehaven Street, N.W., Washington, D.C. 20234.

FOR FURTHER INFORMATION CONTACT: Dr. Nancy Foster, Deputy Director, Sanctuary Programs Office, Office of Coastal Zone Management, 3500 Whitehaven Street, N.W., Washington, D.C. 20234, (202) 694-8236.

SUPPLEMENTARY INFORMATION: Title III of the Marine Protection, Research and Sanctuaries Act of 1972, as amended, 16 U.S.C. 1431-1434 (the Act) authorizes the Secretary of Commerce, with Presidential approval, to designate ocean waters as marine sanctuaries to preserve or restore distinctive conservational, recreational, ecological, or aesthetic values. Section 302(f)(1) of the Act directs the Secretary to issue necessary and reasonable regulations to control activities permitted within a designated marine sanctuary. The authority of the Secretary to administer the provisions of the Act has been delegated to the Assistant Administrator for Coastal Zone Management within the National Oceanic and Atmospheric Administration, U.S. Department of Commerce (the Assistant Administrator).

The Assistant Administrator for Coastal Zone Management received the President's approval to designate as a marine sanctuary a 5.32 square nautical mile (sq nm) area located 6.7 nm southwest of Big Pine Key, Florida. The area was so designated on January 18, 1981.

The Act, as amended by Public Law 96-332, provides that the Designation becomes effective unless Congress disapproves it or any of its terms by a concurrent resolution adopted by both Houses "before the end of the first
period of sixty calendar days of continuous session after transmission of the President's message to Congress, 302(a)(1) and 302(h)). As noted by the President in his statement of August 29, 1980, when signing Public Law 96-332, this provision raises constitutional questions but will be treated as a "report-and-wait" provision in accordance with that statement.

Consequently, the regulations will not become effective until after the 60-day period described in Section 302(h). This period does not include those days on which either House is adjourned for more than 3 days to a day certain and is broken by an adjournment sine die. It is unlikely that these regulations will become effective before April 1981.

Notification of the effective date will be published in the Federal Register.

The proposed area is one of the few remaining well-developed off-shore reef communities off the continental United States. The Sanctuary area includes a spectacular "spur and groove" coral formation supporting a tremendous diversity of marine species. The primary purpose of the proposed regulations is to protect and to preserve the coral reef ecosystem, including the reef dwelling organisms. Accordingly, all activities which would adversely impact coral or other distinctive marine resources are prohibited, except those permitted by the Assistant Administrator in accordance with Sec. 937.6. Such activities include: handling, picking or collecting (Sec. 937.6(a)(1)), anchoring coral within a core trapezoidal area (Sec. 937.6(a)(2)), and using harmful fishing methods (Sec. 937.6(a)(3)). Also activities damaging cultural or historical antiques in the area including the wreck of the H.M.S. Looe are prohibited (Sec. 937.6(a)(4)).

Finally polluting activities which could damage the natural values of the area are prohibited (Sec. 937.6(a)(5)) as is tampering with markers (Sec. 937.6(a)(6)). Except with respect to the removal of or damage to coral or other distinctive features, anchoring, the use of certain fishing methods, and discharges, fishing activities are not subject to Sanctuary regulation and remain the responsibility of the Regional Fishery Management Council(s).

On May 20, 1980, NOAA published proposed regulations for the Sanctuary in the Federal Register (45 FR 33645) and issued a Draft Environmental Impact Statement (DEIS) which described in detail the proposed regulatory regime and its rationale. After consideration of the comments, a Final Environmental Impact Statement (FEIS) was issued in November 1980. In response to comments on the DEIS, the prohibition on anchoring on coral reefs was modified to apply only to the fores reef (the area of the well defined "spur and groove" coral) rather than the entire Sanctuary, a restriction on the speed of watercraft was eliminated, and permitting for tropical specimen collecting was restricted to educational or scientific purposes. Some additional comments were received on the FEIS, but the regulations discussed in the FEIS and those published here are substantially identical. The more significant comments on the proposed regulations and the regulatory elements of the impact statement and NOAA's responses to them follow:

(1) Comment: Several reviewers commented that adequate recreational opportunities should be included in the Looe Key by the Fishery Management Council pursuant to the Fishery Conservation and Management Act (FCMA) and that sanctuary designation would, therefore, be duplicative and unnecessary.

Response: The Regional Fishery Management Councils (FMC) develop Fishery Management Plans (FMP), which provide for protection of selected fishery resources but in general do not focus on site-specific ecosystem management. FMP's do not necessarily consider elements of the ecosystem which are not harvested nor do they address the entire range of threats to which an area like Looe Key can be subjected. Title III of the Marine Protection, Research and Sanctions Act, on the other hand, authorizes conservation of special or threatened ecosystems per se. Because of the differing emphasis and role to statutes, the efforts of the FMP's and the Marine Sanctions Program should, through cooperative efforts, complement each other.

In particular, major differences between the Councils' Joint Coral and Coral Reef Resources FMP and the Looe Key marine sanctuary proposal include: (a) the size of the specific area to be protected, (b) a one sq nm Habitat Area of Particular Concern proposed in the draft Coral and Coral Reef Resources FMP vs. the 5 sq nm Sanctuary, (c) the emphasis on comprehensive management planning, including interpretive programs and design and implementation of long-term site-specific research and (d) the range of organisms toward which management attention is directed. Because the Council's FMP limits the definition of coral reef resources to the actual coral structures, the protection of invertebrates and lower vertebrates remains without specific protection. The productivity of coral reefs, equalled only by that of tropical rain forests, is a result of all the organisms forming the reef structure. It is this entire spectrum, and not just one of its components that is the focus of sanctuary integrated research, education and regulation over the long-term.

(2) Comment: Anchoring should not be restricted throughout the entire Sanctuary, but only on the fores reef area where the "spur and groove" coral system is found. The larger selection under the commercial recreational fishing and commercial use of the area without offering significant benefits.

Response: Comment accepted. See change in Sec. 937.6(a)(3)(A).

(3) Comment: The proposed 5 sq nm boundary was criticized both as being too large and too small. A number of comments in the former category felt that 1 sq nm area proposed by the Fishery Management Councils as a Habitat of Particular Concern would provide adequate management area.

Response: Protection of one sq nm area will provide for protections of physical damage to the fores reef and associated organisms but it will not likely provide an adequate area for assuring biological integrity of the system. To assure the environment, protection of any core area (fores reef) requires identification and protection of even larger areas (buffers) where essential processes for the stability of the ecosystem take place. NOAA does not believe that a 5 sq nm offer a buffer to assure long-term productivity of the Looe Key reef system.

The 5 sq nm sanctuary proposal has also been criticized as being inadequate to protect the fores reef because a 5 sq nm area is too small and vulnerable to outside harmful activities. In addition, some reviewers felt that the Sanctuary proposal was too small to contribute to protection of the reef tract itself. It is true that marine systems cannot be managed by reliance upon traditional management techniques.

Essential differences between marine and terrestrial environments include the size of the ecosystems, the mobility of marine organisms, and the varied nature of the interaction between the measurements and with the natural nature of the hypsosphere, sink, and downstream effects. Because of these characteristics, setting aside limited marine areas such as Looe Key contributes to protection of the larger system. Locating these small candidates for protection involves consideration of their location, number, size and linkages. Ideally, one would be able to identify the linkages, protect them and thereby protect the region as a whole while we continue to use and enjoy it. Though Looe Key alone represents a small segment of the reef system, it is possible that by focusing intensive management on smaller discrete units such as Biscayne Bay National Park, Key Largo National Marine Sanctuary, John Pennekamp State Park, Fort Jefferson National Park, and Looe Key we can protect enough of the reef tract linkages to insure protection of the entire system. In addition, these discrete protected areas are a part of a network of conservation measures afforded by the Management Councils' Coral and Coral Reef Resources Fishery Management Plan. In the near future, other FMP's will be implemented for fisheries under the jurisdiction of the South Atlantic Council. Together with heightened awareness of the benefits of close cooperative management strategies, should provide an increased level of protection.

A 5 sq nm Sanctuary provides a reasonable buffer adequate to protect the fores reef without significant economic impact. Should
it become apparent at some future date based on sound data, that a larger boundary is necessary, the Designation Document could be revised. Such an action, however, would require Presidential approval.

In conclusion, after assessing the potential impacts of larger Looe Key sanctuary boundaries continues to conserve the 5 sq nm alternative in a purely biological sense, a sanctuary covering the whole of the Florida Keys might be more desirable; however, the Looe Key proposal offers a workable proposal which will contribute to protection of the integrity of the entire reef tract at a time to minimize economic impacts to area residents.

(4) Comment: A number of reviewers opposed on ecological or philosophical grounds NOAA's proposal to allow by permit commercial specimen collecting for amateur and commercial purposes. In addition, several reviewers stated that enforcement of a permit system for effective regulation of commercial tropical specimen collecting could not be developed.

Response: Subsequent consultations with existing commercial permitting authorities emphasized the difficulties involved. It is not likely that permittees would be able to monitor any collecting activity necessary to assure that conditions of the permit without an elaborate surveillance system with specified checkpoints for ingress and egress at the sanctuary boundaries. On the other hand, establishment of a limited permitting system to allow taking of tropical specimens for research and scientific purposes could be accomplished without administrative and enforcement difficulties. It is generally being done in the Key Largo National Marine Sanctuary and the number of permits applications is low. It is anticipated that most research within the sanctuary would be non-consensual (i.e., observation) and would not require a permit. Limiting the taking of specimens to research and educational purposes only will result in significantly fewer permits than would a system which included commercial taking.

Furthermore, there are many available, easily accessible, and suitable areas for tropical fish collectors to capture tropical fish and invertebrates in south Florida. Prohibiting collecting in the Looe Key area would therefore cause limited economic loss to present commercial collectors.

Accordingly the permitting criteria in Sec. 937.8(c) have been changed to prohibit collection except for permit for scientific and educational purposes. The regulation, however, does not exclude collecting for sale to public aquaria and other educational institutions. The final regulations will help protect and enhance the tropical fish populations at Looe Key, prevent depletion of ecologically and economically valuable species, add to the aesthetics of the sanctuary and help maintain long-term productivity of this small reef for future generations.

The Designation Document
NOAA’s marine sanctuary program regulations (15 CFR Part 922) provide that the management regime for a marine sanctuary will be established by two documents, a Designation Document and regulations issued pursuant to Section 302(a) of the Act. The Designation Document serves as a constitution for the Sanctuary, establishing among other things the purpose of the Sanctuary, the types of activities that may be subject to regulation within it, and the extent to which other regulatory programs with coastal management implications will continue to be effective. The Looe Key National Marine Sanctuary Designation Document is as follows:

Designation Document of the Looe Key National Marine Sanctuary

Preamble

Under the authority of the Marine Protection, Research and Sanction Act of 1972, P.L. 92-532 (the Act), the waters at Looe Key are hereby designated a Marine Sanctuary for the purposes of preserving and protecting this valuable and fragile ecological and recreational resource and of stimulating research activities and public awareness of its value and vulnerability.

Article 1. Effect of Designation

Within the area designated as the Looe Key National Marine Sanctuary (the Sanctuary), described in Article 2, the Act authorizes the promulgation of rules and regulations as are reasonable and necessary to protect the values of the Sanctuary. Article 4 of the Designation lists those activities which may require regulation but the listing of any activity does not by itself prohibit or restrict it. Restrictions or prohibitions may be accomplished only through regulation and additional activities may be regulated only by amending Article 4.

Article 2. Description of the Area

The Sanctuary consists of a 5.32 square nautical mile (sq nm) area of the waters located off the coast of Florida 6.7 nm (12.5 km) southwest of Big Pine Key in the lower Florida Keys. The precise boundaries are as follows:

Latitude and Longitude Are Furnished to 001 of a Second

<table>
<thead>
<tr>
<th>Pt. No.</th>
<th>Latitude</th>
<th>Longitude</th>
</tr>
</thead>
</table>
| 2-1     | 24°31'37" | 81°26'00"
| 2-2     | 24°31'34" | 81°26'00"
| 2-3     | 24°34'09" | 81°23'00"
| 2-4     | 24°34'12" | 81°23'00"

Article 3. Characteristics of the Area That Give It Particular Value

The Sanctuary area is a valuable diverse and biologically productive living coral reef community in the Florida Reef Tract, including an array of tropical fish species and a well defined classic "spur and groove" reef system. The site also provides feeding, spawning, and nursery areas valuable for commercial fisheries and serves as a commercial, ecological, research and recreation resource.

Article 4. Scope of Regulation

Section 1. Activities Subject to Regulation
In order to protect the distinctive values of the Sanctuary, the following activities may be regulated to the extent necessary to ensure the protection and preservation of its marine features and the ecological, recreational, and esthetic value of the area:

a. Collecting and damaging coral.
b. Tropical specimen collecting.
c. Vessel operations.
d. Spearfishing.
e. Wire fish trap fishing.
f. Lobster potting.
g. Bottom trawling and specimen dredging.
h. Discharging or depositing certain substances.

j. Dredging or alteration of or construction on the seabed.

k. Removing or otherwise harming cultural or historic resources.

Section 2. Consistency with International Law. The regulations governing the activities listed in Section 1 of this Article will apply to foreign flag vessels and persons not citizens of the United States only to the extent consistent with recognized principles of international law including treaties and international agreements to which the United States is a party.

Section 3. Emergency Regulations. Where essential to prevent immediate, serious and irreversible damage to the ecosystem of the area, activities other than those listed in Section 1 may be regulated within the limits of the Act on an emergency basis for an interim period not to exceed 120 days, during which an appropriate amendment of this Article would be proposed in accordance with the procedures specified in Article 6.

Article 5. Relation to Other Regulatory Programs

Section 1. Fishing. The regulation of fishing in Florida shall be authorized under Article 4, except with respect to the removal or damage of coral (paragraph (a)), the removal of tropical fish and invertebrates, (paragraph (b)), and the use of certain techniques including paragraphs (d) through (g). In addition, fishing regulations may be regulated with respect to discharge (paragraph (h)) and anchoring (paragraph (c)). All regulatory programs pertaining to fishing, including particularly Fishery Management Plans promulgated under the Fishery Conservation and Management Act of 1976, 18 U.S.C. 1851 et seq., shall remain in effect and all permits, licenses, and other authorizations issued pursuant thereto shall be valid within the Sanctuary unless authorizing any activity prohibited by regulation implementing Article 4.

Section 2. Defense Activities. The regulation of those activities listed in Article 4 shall not prohibit any activity conducted by the Department of Defense that is essential for national defense or because of emergency. Such activities shall be conducted consistently with all regulations to the maximum extent practicable.

Section 3. Other Programs. All applicable regulatory programs shall remain in effect and all permits, licenses and other authorizations issued pursuant thereto shall be valid within the Sanctuary unless authorizing any activity prohibited by any regulation implementing Article 4. The Sanctuary regulations shall be consistent with any necessary certification procedures.

Article 6. Alterations to This Designation

This Designation can be altered only in accordance with the same procedures by
which it has been made, including public
hearing, consultation with interested Federal
and State agencies and the appropriate
Regional Fishery Management Council and
approval by the President of the United
States.

[End of Designation Document]

Only those activities listed in Article 4
are subject to regulation in the
Sanctuary. Before any additional
activities may be regulated, the
Designation must be amended through
the entire designation procedure
including public hearing and approval
by the President.

Public Review and Comment:

NOAA invites public review and
comment on these final regulations.
Written comments should be submitted
to: Director, Sanctuary Programs Office,
Office of Coastal Zone Management,
National Oceanic and Atmospheric
Administration, 3500 Whitehaven Street,
N.W., Washington, D.C. 20225.

Dated: January 19, 1981.

Donald W. Fowler,
Deputy Assistant Administrator for Coastal
Zone Management.

Accordingly, Part 937 is added as
follows:

PART 937—THE LOOE KEY NATIONAL
MARINE SANCTUARY REGULATIONS

Sec.
937.1 Authority.
937.2 Purpose.
937.3 Boundaries.
937.4 Definitions.
937.5 Allowed activities.
937.6 Activities prohibited without a permit.
937.7 Penalties for commission of prohibited acts.
937.8 Permit procedures and criteria.
937.9 Other permits.
937.10 Appeals from administrative action.

§ 937.1 Authority.

The Sanctuary has been designated
by the Secretary of Commerce pursuant
to the authority of Section 302(a) of Title
III of the Marine Protection, Research
and Sanctuaries Act of 1972, as
The following regulations are issued
pursuant to the authorities of Sections
302(f), 302(g), and 303 of the Act.

§ 937.2 Purpose.

The purpose of designating the
Sanctuary is to protect and preserve the
coral reef ecosystem and other natural
resources of the waters at Looe Key and
to ensure the continued availability of
the area for public educational purposes
and as a commercial, ecological,
research and recreational resource. This
area supports a particularly rich and
diverse marine biota. The area is easily
accessible to the lower Florida Keys and
is widely used by boaters, charter boat
operators, divers and fishermen. Consequently,
both present and potential levels of use
may result in harm to Looe Key in the
absence of long-term planning, research,
monitoring and adequate protection.

§ 937.6 Activities prohibited without a permit.

(a) "Administrator" means the Administrator of the National Oceanic
and Atmospheric Administration.
(b) "Assistant Administrator" means the Assistant Administrator for Coastal
Zone Management, National Oceanic and Atmospheric Administration.
(c) "Person" means any private individual, partnership, corporation, or
other entity; or any officer, employee, agent, department, agency or
instrumentality of the Federal government, or any State or local unit of
the government.
(d) "Tropical fish" means fish and
invertebrates of minimal sport and food value, usually brightly colored, often
used for aquaria purposes and which live in a close interrelationship with the
coral.
(e) "The Fore Reef" means the area of
the well defined "spur and groove" coral
reef as delineated by Loran readings 1,
2, 3, 4 as follows:

1. NW 7980–W–13973.7, 7980–Y–
43532.7
2. SW 7980–W–13975.4, 7980–Y–
43543.4
3. NE 7980–W–13975.0, 7980–Y–43530.1

§ 937.5 Allowed activities.

All activities except those specifically
prohibited by Section 937.6 may be
carried on in the Sanctuary subject to all
prohibitions, restrictions and conditions
imposed by any other authority.
(C) No person shall use pole spears, awllan sline, rubber-powered raulets, pneumatic and spring loaded guns or similar devices known as spearguns within the Sanctuary.

(D) No person shall use poisons, electric charges, explosives or similar methods within the Sanctuary.

(4) Removing or damaging distinctive historical or cultural resources. No person shall remove, damage or tamper with any historical or cultural resources, including cargo pertaining to submerged wrecks.

(5) Discharges. No person shall deposit or discharge any materials or substances of any kind except:

(A) Fish or parts and chumming materials.

(B) Cooling water from vessels.

(C) Effluents from marine sanitation devices.

(8) Markers. (A) No person shall mark, deface or damage in any way or place, or remove or tamper with any signs, notices, or placards, whether temporary or permanent, or with any monuments, stakes, posts or other boundary markers installed by the managers or managers placed for the purpose of lobster pot fishing.

(B) All activities currently carried out by the Department of Defense within the Sanctuary are essential for the national defense and, therefore, not subject to these prohibitions. The exemption of additional activities having significant impacts shall be determined in consultation between the Assistant Administrator and the Department of Defense.

(C) The prohibitions in this section are not based on any claim of territoriality and will be applied to foreign persons and vessels only in accordance with principles of international law, including treaties, conventions and other international agreements to which the United States is a signatory.

§ 937.7 Penalties for commission of prohibited acts.

Section 303 of the Act authorizes the assessment of a civil penalty of not more than $50,000 against any person subject to the jurisdiction of the United States for each violation of any regulation issued pursuant to the Act, and further authorizes a proceeding in rem against any vessel used in violation of any such regulation. Procedures are outlined in Subpart D of Part 922 (15 CFR Part 922) of this Chapter. Subpart D is applicable to any instance of a violation of these regulations.

§ 937.8 Permit procedures and criteria.

(a) Any person in possession of a valid permit issued by the Assistant Administrator in accordance with this section may conduct the specific activity in the Sanctuary including any activity specifically prohibited in Section 937.5, if such activity is (1) research related to the resources of the Sanctuary, (2) to further the educational value of the Sanctuary, or (3) for salvage or recovery operations.

(b) Permit applications shall be addressed to the Assistant Administrator for Coastal Zone Management, ATTN: Sanctuary Programs Office, National Oceanic and Atmospheric Administration, 3300 Whitehall Street, N.W., Washington, D.C. 20235. An application shall include a description of all activities proposed, the equipment, methods, and personnel (particularly describing relevant experience) involved, and a timetable for completion of the proposed activity. Copies of all other required licenses or permits shall be attached.

(c) In considering whether to grant a permit the Assistant Administrator shall evaluate such matters as: (1) the general profession and financial responsibility of the applicant; (2) the appropriateness of the methods envisioned to the purpose[s] of the activity; (3) the extent to which the conduct of any permitted activity may diminish or enhance the value of the Sanctuary as a source of recreational, educational or scientific information; (4) the end value of the activity; and (5) such other matters as deemed appropriate.

(d) In considering any application submitted pursuant to this section, the Assistant Administrator shall seek the views of the Fishery Management Councils and may seek and consider the views of any person or entity, within or outside the Federal government, and hold a public hearing, as deemed appropriate.

(e) The Assistant Administrator may, at his or her discretion, grant a permit which has been applied for pursuant to this section, in whole or in part, and subject to such condition[s] as deemed appropriate. The Assistant Administrator or a designated representative may observe any permitted activity and/or require the submission of one or more reports of the status or progress of such activity. Any information obtained shall be made available to the public.

(f) The permit granted under paragraph (e) may not be transferred without written permission of the Assistant Administrator.

(g) The Assistant Administrator may amend, suspend or revoke a permit granted pursuant to this Section, in whole or in part, temporarily or indefinitely, if the permit holder (the Holder) has acted in violation of the terms of the permit or of the applicable regulations. Any such action shall be set forth in writing to the Holder, and shall set forth the reason[s] for the action taken. The Holder may appeal the action as provided for in § 937.10.

§ 937.9 Other permits.

All permits, licenses and other authorizations issued pursuant to any other authority remain valid if they do not authorize any activity prohibited by Section 937.6. Any interested person may request that the Assistant Administrator offer an opinion on whether an activity is prohibited by these regulations.

§ 937.10 Appeals from administrative action.

(a) Any interested person (the Appellant) may appeal the granting, denial, or conditioning of any permit under § 937.5 to the Administrator of NOAA. In order to be considered by the Administrator, such appeal shall be in writing, shall state the action(s) by the Assistant Administrator. The Appellant may request an informal hearing on the appeal.

(b) Upon receipt of an appeal authorized by this Section, the Administrator shall notify the permit Applicant, if other than the Appellant, and may request such additional information and in such form as will allow action upon the appeal. Upon receipt of sufficient information, the Administrator shall decide the appeal in accordance with the criteria set in § 937.5 as appropriate, based upon information relative to the application on file at OCMR and any additional information, the summary record kept of any hearing and the Hearing Officer's recommended decision, if any, as provided in paragraph (c) and such other considerations as deemed appropriate. The Administrator shall notify all interested persons of the decision, and the reason[s] therefor in writing, normally within 30 days of the receipt of sufficient information, unless additional time is needed for a hearing.

(c) If a hearing is requested or if the Administrator determines one is appropriate, the Administrator may grant an informal hearing before a Hearing Officer designated for that purpose after first giving notice of the time, place, and subject matter of the hearing in the Federal Register. Such hearing shall normally be held no later
than 30 days following publication of the notice in the Federal Register unless the Hearing Officer extends the time for reasons deemed equitable. The Appellant, the Applicant (if different) and, at the discretion of the Hearing Officer, other interested persons, may appear personally or by counsel at the hearing and submit material and present such arguments as determined appropriate by the Hearing Officer. Within 30 days of the last day of the hearing, the Hearing Officer shall recommend in writing a decision to the Administrator.

(d) The Administrator may adopt the Hearing Officer’s recommended decision, in whole or in part, or may reject or modify it. In any event, the Administrator shall notify interested persons of the decision, and reason(s) therefor in writing within 30 days of receipt of the recommended decision of the Hearing Officer. The Administrator’s action shall constitute final action for the Agency for the purposes of the Administrative Procedure Act.

(e) Any time limit prescribed in this Section may be extended for a period not to exceed 30 days by the Administrator for good cause, either upon his or her own motion or upon written request from the Appellant or Applicant stating the reason(s) therefor.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 200

[Release Nos. 33-6280, 34-17451, 35-21933, 36-607, 10-11558, and IA-748]

Revision of Fee Schedule for Records Services

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is revising its rule relating to fees for records services as reflected in a new service contract. The new contract replaces a prior contract for information dissemination services that expired on September 30, 1990. As of October 1, 1990, the new contract provides for the continuance of services to disseminate filings made with the Commission to interested members of the public.

SUPPLEMENTARY INFORMATION: A new services contract that includes but is not limited to the reproduction of public documents in the public reference room in Washington, D.C. and in the Commission’s regional office reference rooms in New York City, Chicago, and Los Angeles was signed by the Commission on October 1, 1990 with Disclosure, Inc., 5181 River Road, Bethesda, Maryland 20014. This information dissemination services contract is reflected in 17 CFR Part 200.

The new fee schedule for services provided to the public is indicated in the following revision. For convenience, Appendix E—Schedule of fees for records services, is being reprinted in its entirety.

Accordingly, Part 200 of Chapter II of Title 17 of the Code of Federal Regulations is amended by revising § 200.80 to read as follows:

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

§ 200.80a Appendix E—Schedule of fees for records services.

Searching and Attestation Services. Locating and making available records requested for inspection or copying (including overhead costs): First one-half hour—No Fee; Each additional one-half hour or fraction thereof—$2.50. Attestation with Commission Seal (in addition to other fees, if any): $2.00.

Payment for the above services must be made by check or money order payable to: “Treasury of the United States.” Address mailed payments to: Comptroller, Securities and Exchange Commission, Washington, D.C. 20549.

Facsimile Copy of Documents. Facsimile copies of public documents filed with the Commission and retained as hard copy records or as microfiche are provided by a service contractor at rates established by a contract between the contractor and the Commission. All requests for regular service facsimile copies should be directed to the Public Reference Branch, Securities and Exchange Commission, Washington, D.C. 20549. Request for priority services may be directed to the service contractor, or to the Public Reference Branch. Requests for searching services should be directed to the service contractor. Cost estimates with respect to any regular or priority copying job will be supplied upon request by the Public Reference Branch.

Copies, when authorized, will be sent directly to the purchaser by the service contractor unless attestation is requested. The purchaser will be billed by the contractor for the costs of the copies plus postage or other delivery charges, if any. Payment of all charges must be made to the contractor, not to the SEC, in the manner specified on the contractor’s invoice. The purchaser will be billed separately for any additional searching and attestation services, if any, at the rates noted above.

Paper-to-paper facsimile copies may range from 8½” x 11” to 14” in size, regardless of the size of the original, and are subject to 25% reduction to accommodate oversized originals if the resulting copies remain legible. If two or more facsimile copies must be made from oversized originals, the customer will match and join the copies and be billed for them at the unit price charge for each copy produced. If facsimile copies are to be certified by the SEC, the copies will have a left margin of least 1 inch. Fiche-to-paper blowback copies will be 8½” x 14”, including clear 6-point bold type characters if the original paper that was filmed was itself legible.

The following types of dissemination services are available. The stated time for delivery in each case begins to run only after receipt of the material by the contractor; if files cannot immediately be made available by the Commission, the time of shipment will be affected. The contractor maintains files of most materials.

Regular service.—Hard (facsimile) copies of original hard copies, or from microfiche accessible to the contractor, will be shipped within seven calendar days after order and material are received by the contractor—each page—$0.10; Minimum charge each order for regular service—$5.00. (Delivery costs are additional; applicable sales taxes are included.)

Priority service.—Hard (facsimile) copies of original hard copies, or from microfiche accessible to the contractor, will be shipped by 4 p.m. of the day following receipt of the order, exclusive of weekends or holidays—each page—$0.25; Minimum charge each order for priority service—$10.00. (Delivery costs and applicable sales taxes are additional.)

Watching service.—Hard (facsimile) whole copies of customer-specified original or originals received by the contractor for filing as part of the ordinary maintenance of the contractor’s master film file will be shipped by 4 p.m. of the day following contractor receipt of the original(s), exclusive of weekends or holidays—each page—$0.45; Minimum charge each order for watching service—$25.00. (Delivery costs and applicable sales taxes are additional.)
