

reporting requirement from the Export Administration regulations.

NOTE: This rule is effective on April 30, 1982.

FOR FURTHER INFORMATION CONTACT: Pat Huber, Resource Assessment Division, Office of Industrial Resource Administration, Department of Commerce, Washington, D.C. 20230; Telephone: (202) 377-3984.

SUPPLEMENTARY INFORMATION: At present, exporters are required to submit a copy of each Shipper's Export Declaration filed on the export of cobalt and certain related commodities containing 10 percent or more cobalt directly to the Department of Commerce, with the cobalt content of each shipment specified in pounds. This reporting system was initiated in January, 1979 after the Department had reviewed the then current and prospective supply and export situation for cobalt; it was established in lieu of a licensing or monitoring program as contemplated under the Export Administration act to minimize the reporting burden on industry, while still providing the Department with timely and detailed data on exports of these commodities.

The data acquired from the reporting program is not necessary, given current cobalt market conditions. Thus, the Department has determined that continuation of the reporting requirement is no longer warranted.

Rulemaking Requirements

The Office of Industrial Resource Administration has determined that:

1. Because this rule does not impose controls on exports, under Section 13(a) of the Export Administration Act of 1979 (50 U.S.C. app. 2401 *et seq.*) it is exempt from the public participation in rulemaking procedures of the Administrative Procedure Act.

2. This rule does not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* In fact, the rule relieves exporters from an existing reporting requirement.

3. This rule does not affect a substantial number of small businesses; therefore, the requirements of the Regulatory Flexibility Act, 5 U.S.C. 3501 *et seq.* are not applicable.

4. This is not a "major rule" as defined in Executive Order 12291 (46 FR 13193, February 19, 1981), "Federal Regulation."

Savings Provision

This rulemaking shall not affect any violation of rules, regulations, orders, licenses or other forms of administrative

action during the period that the cobalt reporting requirement was in effect.

List of Subjects in 15 CFR Part 377

Administrative practice and procedure, Export licenses, Exports, Marketing quotas, Short supply controls.

PART 377—SHORT SUPPLY CONTROLS AND MONITORING

Accordingly, the Export Administration Regulations are amended as follows:

§ 377.5 [Removed and Reserved] Supplement No. 1 to Part 377 [Removed]

1. Section 377.5 is removed and reserved, and Supplement No. 1 to Part 377 is removed.

(Secs. 7, 12, 13 and 15, Pub. L. 96-72, 50 U.S.C. app. 2401 *et seq.*; Executive Order No. 12214 (45 FR 29783, May 6, 1980); Department Organization Order 10-3, (45 FR 6141, January 25, 1980); International Trade Administration Organization and Function Orders 41-1 (45 FR 11862, January 30, 1980) and 41-4 (45 FR 65003, October 1, 1980))

Dated: February 24, 1982.

John A. Richards,

Acting Director, Office of Industrial Resource Administration.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

15 CFR Parts 935 and 936

Channel Islands and Point Reyes-Farallon Islands National Marine Sanctuaries: Hydrocarbon Prohibition Effective

AGENCY: Office of Coastal Zone Management (OCZM), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Confirmation of effective date.

SUMMARY: NOAA has completed its review of a Regulatory Impact Analysis (RIA) on the provisions of the regulations at 15 CFR Parts 935 and 936 that would prohibit new hydrocarbon development within the Channel Islands and Point Reyes-Farallon Islands National Marine Sanctuaries and has found no compelling reasons to further suspend or alter the regulations. As a result, the regulations became effective on March 30, 1982.

A NOAA-prepared synopsis of the RIA is available at the address listed below. Copies of the RIA will be

available from the National Technical Information Service in mid-June.

DATES: 15 CFR 935.6 and 935.7 (published at 45 FR 65198, Oct. 2, 1980), and 936.6 (published at 46 FR 7936, Jan. 26, 1981), became effective on March 30, 1982.

FOR FURTHER INFORMATION CONTACT: John Epting, (202) 634-4236.

ADDRESS: Sanctuary Programs Office, Office of Coastal Zone Management, NOAA, 3300 Whitehaven Street, NW., Washington, D.C. 20235.

SUPPLEMENTARY INFORMATION: The majority of the regulations issued pursuant to the designation of the Channel Islands and Point Reyes-Farallon Islands National Marine Sanctuaries became effective in 1981 (46 FR 23924, April 29, 1981).

In response to Executive Order 12291, NOAA suspended the regulations at §§ 935.6, 935.7, and 936.6 on March 30, 1981 (46 FR 19227) that prohibited or had the effect of prohibiting hydrocarbon development within either sanctuary. The regulations remained suspended until March 30, 1982 while NOAA prepared an RIA and solicited comments on substantive issues pertaining to the regulation of hydrocarbon activities. After reconsidering the entire four-year record including the recent comments on the suspension and the extensive written regulatory analysis, NOAA has found no compelling reasons to further suspend or alter the regulations. As a result, the regulations became effective, as originally promulgated, on March 30, 1982.

Due to the length of the RIA, it will not be available from the Sanctuary Programs Office. The document, "Regulatory Impact Analysis on Hydrocarbon Operations Within the Channel Islands and Point Reyes-Farallon Islands National Marine Sanctuaries," will be available through NTIS in mid-June. A NOAA-prepared synopsis is, however, available upon request from the above address.
